Dear Jim:

Enclosed is your copy of the stack test results for the stack test performed by Badger Laboratories on the sawdust dryer stack on October 4, 1995.

This stack test was performed in response to the notice of Violation dated August 17, 1995. The notice sighted that visual smoke readings indicated an apparent violation of S. NR431.05. WIS. ADM, Code.

A stack was requested and performed. The enclosed report documents the results of the test. The average of the tests is 0.16 lbs./1000 lbs. of exhaust gas, well within the 0.20 lbs./1000 lbs. of exhaust gas.

I look forward to your letter closing this Notice of Violation.

If you have any questions, please feel free to call.

Sincerely,
